

As part of an on-going drive to diversify our Network and become more inclusive, we have teamed up with Catch22 to launch the 'Alumni Programme', offering members the opportunity to create a number of social action volunteering opportunities for graduates of the National Citizen Service programme (NCS).

Volunteering opportunities may vary from short term roles such as minute taking to leaflet dropping, to more substantial opportunities such as the development of a youth panel, or working on a specific crime reduction project in line with local need. There is no limit to the number or type of opportunities you could offer.

If you are interested in creating volunteering opportunities and engaging young people, take a look at our [coordinator toolkit](#) and complete a [registration form](#) today. Completed forms should be emailed to enquiries@ourwatch.org.uk.

Following registration, volunteering opportunities will be circulated to young people across England aged 16-18 via a number of Catch22 networks. For more information, please click [here](#).
